Cholera in the Argentine Republic-Severe Criticism of C. A. Dana and Son.

ISPECIAL DISPATCHES TO THE RECORD-UNION.] DOMESTIC NEWS.

Dana and Son's Villatnous Attack on the Grant Family. NEW YORK, November 22d .- The Time his morning devotes two of its news colamns to an exposure of the Sun's maligthe task of annoying the dead hero's fam-ily as much as the law will permit them to." The Times then publishes half a column interview with Stephen Merritt, who had charge of the funeral, in which the latter says that \$25 would have been an outside

take the consequences. Dana, Junior's, assertion that he paid the bill in order that the controversy over it might be averted, would have a trifle more weight if he had not taken the pains to start the controversy himself, and continue it at as great length as possible. Altogether, it is a wretched affair, but justice to the dead General's family demands that the blame should be put where it belongs, and that is upon the shoulders of the Messrs. Dana.

Bold Threat by Indiana Democrats. Washington, November 22d.—Senator McDonald, of Indiana, in conversation with your correspondent to-night, said: "There is no question about the Democrats having a majority of two in the Legislature, but I would not pronounce it safe until the whole matter is settled. We have some contests in the State Senate, and the Republicans have some in the lower house. Until these matters are settled nothing can be taken as certain. The Republicans have a majority in the lower house. We do not know power of a majority to turn out Demo-crats. They may change the complexion of the Legislature in this way." "Is there no way for the Democrats t

revent this?" asked the correspondent.
"None, unless they break up the Legis

"How can they do that?"
"By resigning,"
"Are they likely to do this?"
"If the Republicans unseat Democrats unjustly, merely because they have the power to do so, the Democrats would probable seeing and heads us, the Legislature ably resign and break up the Legislature It requires two-thirds of both houses to nake a quorum to elect a Senator, and it Legislature."
"If the Republicans should get control would there be any opposition to Harri-

There is none yet, but there might be.

I think Governor Porter would not object unprovoked and fiendish murder was com- and Herzegovina. to being a candidate." The Boodle Aldermen.

New York, November 22d.—At the trial of ex-Alderman McQuade there were few people present who were not actively engaged in the trial. Mr. Nicol resumed the ross-examination of Alderman John At the conclusion Newcomb introduced the minutes of the Board of Aldermen of 1884, to prove that McQuade had twice voted against the railroad bills in Jersey

City and the Brooklyn and Thirty-fourth Bernard J. McDevitt, McQuade's book-eeper since 1879, swore that McQuade's usiness ranged from \$100,000 to \$150,000

per year. Ex-Alderman Charles H. Reilly's testimony had little significance as affecting the guilt or innocence of the accused.

Increasing Demand for Steel Rails. NEW YORK, November 22d .- C. H. Evns, a representative of a well-known firm of steel-rail manufacturers, says the out-look for 1887, as indicated by his business, is unprecedented. There is a combination between steel-rail manufacturers to limit the output and maintain prices, but the operation of the pool for several months has been virtually done away with, as the railroads of the country are requiring more rails than can be turned out, and orders for delivery extend into the early summer of 1887. The current price is \$35 per ton There is not only a great deal of new rail-road building, but the increased traffic on stablished lines necessitates more frequen and extended repairs. The output for 1887

Passenger Commissions. CHICAGO, November 22d .- At the meet ng of representatives of lines interested in the East-bound Pacific coast passenger business, held to-day, the matter of the regulation of payments of commissions was referred to the lines west of the Missouri river and those east of Chicago to agree upon some satisfactory method. The point is already provided for by the roads between Chicago and the Missouri river, the contracts limiting the commission on each single ticket to one dollar. This commission business has so badly demoralized the San Francisco market that none of the lines are known to have made any profit on their sales for the past two years. A Small but Very Energetic Cyclone. GIRARD (Kan.), November 22d.—A cy-clone or electrical storm struck Girard this clone or electrical storm struck Girard this protection of Russian subjects in Bulgaria, morning and passed through the residence portion of the town from southwest to northwest. The path of the storm was only from 50 to 75 feet wide. All of the lighter buildings were demolished, but the larger and more substantial buildings stood the shock without much damage. The total damage will not exceed \$8,000. The clined to depart from her old motto with larger and more substantial buildings stood the shock without much damage. The total damage will not exceed \$8,000. The Presbyterian church is wrecked, and a number of persons were injured. John W. CHICAGO, November 22d.—The Daily News' Savoy, Ill., special says: In a collision between two Illinois Central trains tonight four men were instantly killed and one fatally wounded. A freight train, in the caboose of which was Albert Dunlap, John McDoneld and Jones Todd stowed John McDonald and James Todd, stopped at Savoy for a few minutes. The crew failed to send back a signal, and a wild train following crashed into the caboose, killing the occupants. F. M. Sanderson, brakeman on the rear train, was thrown into the wreck of the engine and scalded almost beyond recognition. The engineer of the wild train, James Neer, was decapitated, and his body crushed to a pulp whether or not they are going to use their power of a majority to turn out Demo-

Dining a Congressman. NEW YORK, November 22d.-Friend dined Congressman-elect A. J. Cummings, of the Sun, yesterday. Among those present was a representative of the Bohemian the Democrats retired, there would be no Club of San Francisco. In his speech he spoke in a humorous vein of the woeful lack of California news in the New York

mitted in this city this evening at the residence of S. V. Bundrum. It appears that L. D. Collier, son of Rev. Robert Laird Collier, of Kansas City, had been in the employ of the Atchison, Topeka and Santa Fe Railroad as Material Agent at this place. He employed one J. H. Yarborough to fill his place during a temporary absence. Upon his return he told Yarborough that he was surprised to find that he had neglected his business. He, being then under the influence of liquor, became angry and attack Collier he was surprised. and struck Collier, whereupon Collier re turned the blow, knocking him down They then separated, Yarborough declaring that he would shoot Collier. Collier wen that he would shoot Collier. Collier went to his hotel, where he ate supper, and from there to his room at the residence of Mr. Bundrum. Shortly after arriving at the house a knock was heard at the dining-room door. Mr. Collier stepped to the door, and upon opening it saw his assail-ant, who instantly raised a revolver and fired upon Collier the ball evidently takfired upon Collier, the ball evidently tak-ing effect in or near the heart, killing him almost instantly. Captain Smith and four unknown sailors perished. Remarkable Surgical Operation. NEW YORK, November 23d-A. M.-Much interest is excited in medical circles by the

uccessful issue of a remarkable operation performed last week by Sir William Mac-Cormac, from the Royal College of Surgeons. On Monday of last week one Slater fell from the scaffold of a house, a distance of eighteen feet, to the ground. Commissioners will report their conclusions of an adjourned meeting to be held towere found to be broken, but on Wednesday Sir William MacCormac, in diagnosing the case, came to the conclusion man was put under the influence of an anesthetic, and an incision made into the abdomen and the diagnosis verified. The contents of the stomach and perinceum were withdrawn, the bladder drawn out, tey had come to see about his politics, a suture made and tested and the organs re-ed him up and beat him with hickory placed. SPECIAL DISPATCHES TO THE RECORD-UNION.

CALIFORNIA.

A Boy's Sad Fate. Suisun, November 22d.—George Boyd, aged 12 years, who lived with his parents on Joyce Island, ten miles from here, was drowned to-night. He was in a boat, and taken with a fit and fell overboard. His body was soon recovered by his father.

Injured by an Explosion. Renwood City, November 22d.—Dennis Delaney, engineer for Timothy Hopkins, of Menlo Park, went into the pit of the gashouse, while it was filled with gas, and lit a match to look at the machinery. An explosion occurred, and Delaney was terribly burned. His recovery is uncertain.

Death from Laudanum. Napa, November 22d.—J. B. Crow, a native of England, aged about 50 years, was found dead in his bed at the Flamant ranch on Sunday. It is supposed he took an overdose of laudanum.

Coal Oil Accidents San Jose, November 22d.—Miss Jessie Baker, a young lady living near Los Gatos, while cleaning a lamp near a stove, dropped it. The oil was ignited in a moment and the flames enveloped her person. Her father at once threw an overcoat over her, and extinguished the fire, but not before she was very severely, though perhaps not fatally, burned.

A 12-year-old daughter of Mrs. Wilson, at Los Gatos, burned her hand badly to-day while kindling a fire with coal oil. Blown Out to Sea.

HUENEME, November 22d.—The schooner Volante was blown off the beach at high water yesterday by an off-shore gale. A vessel, supposed to be her, has just come in sight near Anacapa Island.

Farm-house Burned.

HEALDSBURG, November 22d.-The Riv-

ABSURD CRITICISM.

The Territorial Enterprise, published at headed and reasonable. In its issue of Sunday, however, it goes wrong in an absurd criticism. Under the heading, "California's Incompetent Judiciary," it charges our Judges with derelictions and the laws delays, which in justice cannot be laid to the bench. For instance, it says:

The other day a shyster who had been employed to defend Goldenson, the child-murderer, called in question the legal status of the Grand Jury which indicted his client. His fellow-pettifogger on the bench—after, we have no doubt, gravely adjusting his spectacles and looking as wise as an owl—granted an adjournment on this ground. How is any criminal to be punished if a silly objection like this is to be looked upon favorably by the owlish incompetent on the bench?

Let the Enterprise another time adjust its brains before it rushes to conclusions. declare that the motive actuating ther man shall be put to trial through prejudice, frenzy, or any other motive than conshall be brought to the bar except by those legally qualified to accuse him. Hence, it accused, by special provision of the law. the challenge that the Grand Jury is illeall. That challenge preferred, he discretion to exercise summon the accuser answer to the challenge of the In law men must be presumed to be innocent until the contrary is proven. Goldenson, to that presumption in his behalf-not for

The Judge is as much bound to hearken to gally constituted as to try the prisoner at foul murderer as he is, is as much entitled concerning whose guilt grave doubts may be entertained. If the Enterprise can demonstrate that it is safe to depart from that rule, it can revolutionize society. Departure from it, indeed, will remove every safeguard of organized government that now hedges about the life and property of the editor of the Enterprise, or insures the sacredness of his domestic castle. The law's delays are bad enough, and too numerous. The reverence for technicalities has become an abuse. It aggravates the public and exasperates the multitude. But these things are mainly born of too much "code," and too much formality and statute machinery. No one more than we desires them to be remedied, or criminals to be more speedily and certainly punished; but there must be some orderly method of accomplishing these ends. The inalienable rights of men must be regarded, constitutional guarantees preserved, and guilty men punished with deliberation as well as severity. The Enterprise, when it charges the judiciary of California with the law's delays, should call to mind the fact that the judiciary is the child of the law, and the law is the voice of the people. They can amend or repeal it; they are the sovereign; there is no earthly power superior to them. If, as our contemporary says, "it is impossible for human ingenuity to construct a code in which 'shysters' and quibblers, who are actuated by no desire to reach the truth, may not find a flaw," then it is equally impossible for judges and juries to attain perfection under any system. When it talks of "the broad principle of universal justice

> ALTOGETHER too much fuss is being made over the dispute between James Rus sell Lowell and Julian Hawthorne. Hawthorne "interviewed" Lowell, and published the result in the New York World. Thereupon Lowell protested that he did not know he was being interviewed, much less for publication. But Hawthorne retorted that he stated to Lowell distinctly that he came to him for the express pur pose of gaining knowledge of Lowell's views on certain matters for publication, and that he explicitly so informed the poet. This Lowell as hotly denies. The uestion has resolved itself into one of veracity between two men, both of whem the public would like to believe. It is barely possible that the House, after it is organized by the election of a Speaker, conclude, as it will be plainly its duty to do, to recognize the hold-over Senators and they may declare entitled to those whom they may declare entitled to seats as the constitutional Senate. The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, certain to cure of ague and Fever, or Chilis and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. SHOCKING ACCIDENT.

Elderly Woman While Rescuing Child Receives Fatal Injuries. About 10 o'clock yesterday morning Mrs. Barbara Hemphill, residing at Sixth and F streets, was run over by a car, while endeavoring to rescue her little grandchild from threatened death, and received such injuries that it is not probable that she can recover. There are two railroad tracks on Sixth street, close to her residence, and at sixth street, close to her residence, and at the hour mentioned a switch-engine was backing a train of fourteen cars down on one of them to couple on eight more freight cars that were standing there. The child, only about thirty months old, son of James Sloat, an employe in the railroad boiler-shop, had been visiting his grandmother, and was out playing with a dog. When the train backed up against the cars. When the train backed up against the cars standing on the track the entire number moved on a little distance under the head-may acquired. Mrs. Hemphill glancing around, saw the little boy and dog on the track directly in the way of the moving cars, and immediately rushed to save the infant. She reached the latter a few yards in advance of the train and market. in advance of the train, and was stooping over to grasp the child when the brake-beam struck her leg and caused her to fall forward upon the track, and in a second two wheels of the first truck had passed over her, and also one of the other truck, the last wheel resting against her in such a manner that it was a little time before she could be extricated. She was carried into her house and surgeons soon attended her. They found that both legs were crushed just above the knee, and expressed the belief that she could not survive the injury, though she might possibly live a day or two. She is a widow, nearly 50 years of age. The child, after its grandmother fell, was pushed along by the car, but Patrick Hallanan, who was working outside the foundry in the immediate vicinity of where the accident occurred, ran and picked it up. He was also struck by the car while he was

so doing, but not much hurt. The dog with which the little boy was playing was run over and killed. At a late hour last night Mrs. Hemphill was reported to be still alive. She has re-fused to have her limbs amputated, saying that she had all her life had a hard time to gain a living when she had two sound legs. and she could not see any hope for her if they were cut off. Therefore she preferred

Let the Police Bounce Him.

A colored man, who should receive the prompt attention of the police, is going about the town ostensibly as a fortuneteller. The effort to extract two-bits each from his dupes for the so-called service of imparting what he don't know concerning their future, is harmles enough, but it is learned that on occasion when he finds ladies alone at their resi-dences he offers, and seeks to induce them to take, a powder of Spanish fly, claiming that its effect will be to give them an unknown power to do anything they desir This appears to be in imitation of an inci- held last evening at the armory, Colonel dent that occurred in the early history of mankind, when the devil promised the attendance. After transaction of some "first lady of the land" a similar power from eating an apple. Perhaps the tempter had a fly powder in the apple. But, how-ever that may be, we are informed that he got in his work effectively, and that a grand bounce of the beguiled couple soon followed. Profiting from the light of the past, the proper thing to be done in the present case is for the police to give this particular devil an effectual bounce from town at the earliest possible moment.

Prison Directors.

At the meeting of the Prison Directors a Folsom, all the members were present-John Boggs, W. C. Hendricks, Charles The usual routine business was transacted ing bills for supplies, examining the books of the officers. The plans and specifications for the iron roof for the cell building, submitted by A. E. Hatherton, architect, were adopted, and General McComb was instructed to advertise for proposals for sup-plying the necessary material. The suppleental report of the Warden, on the condi tion of the litigation with the Folsom Water Power Company, was ordered to be incorporated with the annual report. The Directors took up their report as Penologi-cal Commissioners, and devoted considerable time to it. The report comprises 600 pages of manuscript. The next meetings will be held on December 13th, at Folsom. and on the 17th at San Quentin.

GRAY PARDONED. -On Saturday Governor Stoneman, at the urgent solicitation of the manimous Board of Prison Directors, a large number of San Francisco's most influential citizens, the officers who prose-cuted and the Judge who sentenced him, pardoned John S. Gray, the defaulting Sec-retary of the Harbor Commissioners. The petitioners claim that his mind is becoming mpaired, and that further incarceration would inevitably destroy his reason—a punishment far more severe than was conemplated by the Judge who imposed the sentence, or was demanded by the offense. He was convicted of the crime of embezzle ment in November, 1883, and sentenced to ten years' imprisonment.

FATAL RESULT .- Mention was made in vesterday's RECORD-UNION of the fact that a little son of Frank Ruhstaller, aged about 16 months, fell into a tub of hot water on Saturday and was seriously scalded. It was hoped that its injuries were not dangerous, but despite everything that could be done for its relief the little one died early yesterday morning. Mr. and Mrs. Ruhstaller have been sadly afflicted by death, they having lost two of their children several years ago, when their residence on K street, between Fourth and Fifth, was destroyed by fire, which spread so rapidly that the children could not be rescued, although heroic efforts were made

A petition with a long list of signatures was presented to the Board, calling their attention to the disgraceful and deplorable condition of the drainage canal below the city. The citizens in that vicinity have much to complain of, and justly so, too. The authorities should remedy the evil, and if they dump the sewage of the city upon a man's farm in all its rottenness and disease-breeding condition, they should either pay him proper damages or make some effort to take care of the sewage. The petition sets forth "that the canal below the bridge at Sutterville is practically no canal at all, and consequently the filth collects above and becomes a fetid mass of deadly poison, the effects of which are felt

deadly poison, the effects of which are felt for miles around.' The petition was referred to Street Commissioner Ryan, who promised to attend to t without a moment's delay.

If the case is one-half as bad as represented, and the complainants are all honorable persons, it is a matter that should at once engage the attention of the Health Officer and the local Board of Health. If it is true as stated, that from it arises foul odors laden with disease germs, then every

The Street Commissioner was directed to advertise for sealed proposals for the improvement of Twenty-fourth street, from R to Y, according to specifications on file. The grade on the street has been established as follows: At S street, 20 feet above lowwater mark in the river; at T, 18½ feet; U, 17½ feet; V, 17 feet; W, 16 feet; X, 17½ feet; oison to our city.

The City Engineer was directed to prepare plans and specifications for the improvement of Twenty-fourth street, from R to G, as per resolution passed by the Board September 20th, and to make an esimate of the cost of the same. The Street commissioner was directed to advertise for ids for doing the work according to the plans and specifications.

One of the principal advantages that was arged in favor of the Blue Lake water, was hat it dispensed with all pumping machinery, and in that way would be a great saving to the city, besides giving our citi zens clear water, as pure as the snow itself and as health-giving as any to be obtained in the higher Sierras. That the old Holly is worn out, everybody knows, and that at any time a break-down will occur, no one doubts, and were it not for the old-reliable tevens pump the people of this city night be alarmed. The Trustees evidently don't intend to give the citizens what they want-mountain water, with hydraulic pressure, and now comes the third Trustee with another scheme with the old Holly Manufacturing Company, of Lockport, N Y. They want \$24,000 for another pump t is stated that this pump, the Gaskill, will imp 8,000,000 gallons every twenty-four pump 8,000,000 gallons every twenty-four hours. The matter was referred to the City Engineer and the Chief Engineer of the Water Works. "If the matter is left to a vote of the people," remarked a citizen last evening, "there will be no more Holly pumps purchased. What we want, require, should have, and a proper care of the health of the city demands, is mountain water."

How. L. S. Taylor—Dear Sir: I heartily and sincerely congratulate you on your election to the Legislature. While I am defeated for Governor, I nevertheless take great pleasure in the success of any on the ticket and take this liberty of saying to you that I am glad you are elected, and I am proud of the majority Sacramento county gave for me. I am sure you will do good work. I am truly your friend,

THE audience at the Metropolitan Theater last night, though not an unusually large one, was sufficiently demonstrative to prove that Miss Jeffreys-Lewis is to be received during the week in the spirit which her great emotional acting entitles her to be. They next visited the home of John P. Dunn, who has been elected to succeed himself as State Controller. After the first piece was played Mr. Dunn appeared and said: "Boys, it is rather cold outside. You had better come in warm and refeash had better come in, warm and refresh had better come in, warm and refresh yourselves." The party filed into his large parlors, and a generous welcome was extended to all. In response to a few remarks by Wm. W. Cuthbert, Mr. Dunn said he was pleased and felt highly honored for this mark of appreciation. The Sacramento people had treated him magnificently at the polls, and he felt that he owed a debt of gratitude to the Jefferson Club. He expressed the hope that his official a debt of gratitude to the Jefferson Club. He expressed the hope that his official acts would be such that he would retain the confidence and respect not only of the Jefferson Club, but of the entire people. The club was invited into the dining-room, where long tables were laden with cake, fruit and confections, which were flanked with bottles of the choicest wines and liquors, and cigars were choicest wines and liquors, and cigars were passed around which bore the "white-labor" stamp. Mrs. Dunn, assisted by Miss Anna Davis, did the honors. The

latter, an honorary member of the club, made a short address. After taking leave of the Dunn mansion they marched to the residence of Robert Barnett, Revenue Collector. Mr. Barnett appeared and returned thanks for the honor. His family had retired, he was not prepared to extend the hospitality of his home, but he would take a torch from one of the number, and when they arrived at a

down-town hostlery, he hoped they would "all smile with him."

They next marched to the residence of General John T. Carey, the recently-appointed United States District Attorney for the Northern District of California. He was at home and ready to receive them. His large parlors were thrown open, ele-gantly lighted, warmed by a cheerful fire that glowed in the chimney, and lemon-He said he was a candidate at the last elec-tion, but went under the tidal wave with tion, but went under the tidal wave with the rest of the Democratic county ticket. The Jeffreys-Lewis dramatic companyan excellent combination-began a week's season at the New Metropolitan last night. An eight-hours' detention at Mohave delaved the arrival of the company until after 7 o'clock. The indulgence of the audience was asked and given, but it was nearly 9 o'clock before the curtain went up, and nearly midnight when the play closed. It is to the credit of the company to record that it held all the auditors until that late hour, which may be taken as strong evidence of its success, when the coldness of the evening is considered and the prefatory wait of an hour taken into account. Miss Lewis' method and broad ability are too well known here to call for comment now. well known here to call for comment now. She is less vehement than of old, and more stately. She is not probably less vigorous, stately. She is not probably less of but there is considerably less of what some of her critics have denominated the "tigerish" in her action and expression. In the opination of the control of the cont ion of very many the change is improvement, as being more human and natural. 'Clothilde" was the play, with Mr. Mainhall excellently sustaining the leading nale part, supported by Charles Edmonds, Governor-elect Bartlett.

This subject having been disposed of by the meeting, the question of Governor Stoneman's restoration to the retired list part. Yet striking as is the contrast, Miss such artiessness, as to awaken curiosity to in its welfare. In conclusion it was decided by the officers that at the proper time they would do all in their power to aid in the effort to have the name of General Stoneman placed again upon the retired list of the army, if it should be found that mendation and applause. There was evidence of pains-taking rehearsals on its part and of a well-balanced membership. "Clo-

DOMESTIC DEPARTMENT

One of the rules of our Clothing Department is not to recommend Satinet Clothing, and in our stores signs may be seen to that effect.

At the same time there is a demand for this class of goods, especially in boys' wear, because the patterns are neat and closely imitate better grades of cloth. We, therefore, keep Satinet Clothing, but are careful not to recommend it on account of its fading and not always giving good satisfaction.

Many houses sell Satinet goods under the name of Cheviots, and some even go so far as to call them Cassimeres. Satinet can easily be detected by the cotton warp, and very little wool filling that is in it.

We wish to call the attention of those who desire this class of goods to a Boys' Satinet Blouse Suit, neatly made, the price of which is \$1 75-a suit better in quality than that advertised recently in town as a Cheviot Suit, and offered for sale at \$2.

Transportation and Markets.

Cheap and rapid transportation is of the utmost importance to those who are both producers and consumers. It cheapens all that he buys and enhances the price of all he produces. The "LANGFORD COLONY" is most advantageously situated in this respect. It is between two railroads that both connect with steamboats that run from the Sacramento and San Joaquin points to the Golden Gate. This gives the cheapest freight and passenger rates for the distance on this Coast. The markets for all kinds of pro ducts are good. The Canneries, Wineries and Fruit Dealers take all the Fruit raised, at highly remunerative prices. There is an unlimited demand for all the Wine, Raisins, Figs, Prunes, Green, Dried and Canned Fruits that can be grown. Dairy Products, Fowls, Eggs and Vegetables find a ready sale. A RATTLING FIGHT.

THE GREAT MILL BETWEEN BURKE AND DEMPSEY.

The Men Fight Ten Rounds, and the Contest Declared a Draw-Immense Attendance.

[BY TELEGRAPH TO THE RECORD-UNION.] SAN FRANCISCO, November 22d .- It was upposed by some that the Sullivan-Ryan Burke and Dempsey were both known to the ring with the prestige of being the winner of thirty battles. Burke, on the other hand, was believed to have largely gained in hitting power, and to have had the advantage of more scientific training, and to be in better fighting condition than his opponent. Besides this, it was well known that

BOTH MEN "MEANT BUSINESS,"
And that if not stopped by the police, neither would give way until torced to. Everything consequently contributed to make the match one of the most interesting and best contested ever witnessed in this city. As early as 4:30 this afternoon Larkin street, in front of the Pavilion, was filled with people, each determined to get filled with people, each determined to get a front place this time, if they never did again. By 7 o'clock the crowd had so increased in numbers as must have brought delight to the hearts of those destined to delight to the hearts of those destrict to share in the receipts. When the main doors were thrown open it took the combined efforts of a squad of police and doorkeepers to keep the crowd from rushing in without handing out their money or tickets. For a few moments it looked as if

the match inside would be preceded by a more dangerous one outside, but when the crowd saw they would not be permitted to force their way in, they good-naturedly fell back, each one taking his turn.

A LONG WAIT. "Parson" Davies, manager for Burke, took much trouble to effect good arrange-ments for a punctual start, which was timed for 10 o'clock, but 10:20 o'clock arrived without any sign of the "stars."

The audience, which had hoped for better things, manifested its impatience by stamping, whistles and cat-calls. At 10:24 o'clock Burke forced his way through the crowd and jumped through the ropes into the ring. He was greeted with loud applause. Quickly following him came Jack Demp-sey. His appearance increased the apfollowing him came Jack Dempplause, which continued until both men were quietly seated. DIFFICULTY IN GETTING A REFEREE.

Captain Hiram Cook, of this city, was announced as referee. Loud calls for Cook followed, but he failed to put in an appearance. Cries for Sullivan and Ryan en were heard on all sides, but although they were heard on all sides, but although they were present they made no response. Several others were requested to act as re-feree, but they all declined. At this mo-ment a loud crash was heard at the Hayes-street side of the hall, near Polk street, followed by the breaking in of the large loors, and the entrance of about 100 men who thus succeeded in witnessing the con who thus succeeded in witnessing the contest free of charge. Steve Taylor announced that they were ready to take any responsible man in the house. Yells of "Paddy Ryan," "Billy Jordan," "Seymour," and "Charlie Rooney," quickly followed. These either refused or were not accepted. Taylor then again asked for silence, and said:

After much further parleying, Frank crockett was mentioned. He was finally elected referee. The struggle for timekeepers began, but was dropped upon ob-ections to Crockett by Burke. The matter was finally settled by Crockett being chosen referee for Burke, and Jack Hallinan for

THE FIGHT BEGINS. As soon as time was called, at 11:08 P. M., As soon as time was called, at 11:08 P. M., both men promptly responded. No sooner did they come together than Dempsey let out his left and reached Burke in the small ribs. Both men then became wary. Burke then led and reached Dempsey a smart blow on the chest. Dempsey got a left-hander in on Burke, who later repaid him in the same style. Caution on both sides was then noticeable. In the latter part of the round fighting occurred which resulted slightly in favor

Third round—Dempsey led with his left or Burke's body. Some rapid exchanges ollowed. The round was marked by quick Fourth round-Dempsey led off with his left on Burke's stomach, each scoring a like blow, Burke following it up with a heavy right-hander on Dempsey's neck. Dempsey next led with his left, reaching Burke's wind. Dempsey was forced against the ropes and slipped, and Burke's right-hander was too high. He next took Demp-s y on the throat, and maintained the ag-

gressive throughout the round. Dempsey was now more careful and cautious. Fifth round—This opened with a quick exchange. Dempsey aimed a vicious left-hander at Burke's stomach, but missed. Burke countered with effect twice, which aused Dempsey only to give a wicked mile. Some in-fighting and more exnanges ended the round. Sixth round-This opened with Burke

decidedly fresh, and Dempsey a trifle wor-ried and apparently somewhat winded. Burke landed another heavy right on Dempsey's head, followed closely by an pper cut with his left, Dempsey landing a raight left-hander on Burke's mouth. empsey again got in a right-hander on urke's bellows, Burke several times makng pretty stops and landing his right heav-ly on Dempsey's jaw.

Seventh round—Both men appeared to

weakened from their efforts, and the est part of the round was sparring for nd. Dempsey again hit Burke a light ly blow. Burke then began to force the g, and succeeded in getting in two

Eighth round—Both men were in good rder, Dempsey leading short and being oon after countered by Burke. Dempsey gain led, and was met by Burke with a eavy right-hander on the throat. Burke om this point forced the fighting. Ninth round—Burke got in one on Dempsey's nose, but the honors seemed destined to be even, for Dempsey got back with a good swinging blow of his left on the side of Burke's face. Toward the end of the round Burke took the offensive, and with advantage to himself. The fighting

en became heavy, but too close to end ecisively.
Tenth round—Dempsey led short, Burke renth round—Dempsey led short, Burke countering. Dempsey again led short, and was caught with another right-hander on the neck. Some one called "time," and the men ceased fighting, but on being called back Burke hit Dempsey a light body blow. The men, on time being called, retired to their corners, Burke taking off his gloves, while Dempsey remained seated. Burke while Dempsey remained seated. Burke cried out that the match was for ten rounds, and as they had been fought, the

match was over.

A HERESY ATTACKED. An Archbishop Who Doesn't Indorse

By telegraph to the RECORD-UNION.]

New YORK, November 22d.—In his sermon yesterday Archbishop Corrigan, of the Catholic Church, took open and strong ground against the doctrines put forth by the Labor party. A pastoral letter to the same effect was caused to be read in all the churches. The Archbishop, referring to the rights of individuals to acquire and hold property, gives utterance of special interest and significance. He begins by warning his people against certain unsound ing his people against certain unsound principles and theories which assail the

rights of property, and continues as follows: "Undoubtedly God made the earth for the use of all mankind, but whether the glove contest would dwarf the interest felt in the Burke-Dempsey fight, which took place to-night. If, however, public interest in the two contests is to be measured by the results, then the Burke-Dempsey after the results are the results and the results are the results and the results are the r possession thereof was to in common or by fair has proved itself a much more interesting and important event than was the great knock-out of Ryan by Sullivanger and important event than was the great knock-out of Ryan by Sullivanger and its that man can, by law Utah..... New York, November 22d.—Being asked what he had to say in answer to Archbishop Corrigan's pastoral letter, Henry George said: "I don't know what to say. You see when a fellow has been sat down upon by the church, he must stop and think before making a reply. Just at this moment I am not prepared to say anything, but most likely I shall write something and send it to the papers."

WHAT A LEADING JOURNAL SAYS. New York, November 22d.—The Possays editorially: Archbishop Corrigan's pastoral letter to the clergy and laity of the Roman Catholic Church of New York, on the subject of Socialism and Henry George ism, is a very important matter. Althoug clothed in the peculiar language of the Church, nobody can fail to discover what the thought is nor to respect it as embody-ing the truth, of universal application, equally cogent in all stages of the world's history—in heathen as well as in Christian lands. The central idea is that private property is protected by moral sanction, and that the Church is bound, for this reason, to resist all attacks upon it. Henry George will probably reply that he does no seek to dispossess anybody of the improve ments which have been made upon land unless they become so far incorporated with the soil that they cannot be separated from it; but this happens to be the condi-tion of nearly or quite all the land in the

United States to-day.

SENATOR FAIR'S ROAD.

He Wants the Sum of Six Millions for the Property.

Negotiations are still pending between Senator Fair and the Southern Pacific Company for the purchase of the South Pacific Coast Railroad. Meetings between the Senator and the Directors were held on Friday and Saturday last, but were without any definite result. When Senator Fair's proposition that the Southern Pacific should purchase his property was first considered by the Directors, the Senator, it is alleged, offered the road for four millions of dollars. ECZEMA ERADICATED.

Gentlemen—It is due you to say that I think I am entirely well of eczema after having taken Swift's Specific. I have been troubled with it very little in my face since last spring. At the beginning of cold weather last fall it made a slight appearance, but went away and nas never returned. S. S. S. no doubt broke it up; at least it put my system in good condition and Igot well. It also benefited my wife greatly in case of sick headache, and made a perfect cure of a breaking out on my little three year old daughter last summer.
